

Douglas Herbert for Congress

July 28, 2010

Dear Congressman Frelinghuysen,

In these tough economic times, the people of the Eleventh District and America are struggling and they deserve leaders who will properly address their concerns. As candidates for the House of Representatives and out of respect for our American democracy, we owe it to the voters to hold honest and open debates about the future of our nation.

I therefore invite you to join me for a series of three debates so that the voters can gain a clear understanding of our individual policies and positions. I propose one debate on the state of the economy and the need for job creation, the second debate should address energy policy and the environment and the third debate should be an open forum where residents from across our District can ask us direct questions. These debates should be hosted by non-partisan organizations and we should have one in August, one in September and one in October.

I look forward to your prompt response. Please call me at 973-641-3409 to plan our debates.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Herbert', written in a cursive style.
